

**New two-cylinder 4 stroke diesel engine with common-rail direct injection  
"Lombardini LDW 442 CRS"**

**Advantages in comparison to conventional engines:**

- **IMPROVED VIBRATIONAL COMFORT**  
Less vibrations , thanks to the balancing shafts and to the multiple injections of the common rail.
- **EASIER MAINTENANCE**  
Simplified access to the regular maintenance sites
- **BETTER COLD START**  
Start guaranteed as of  $-15^{\circ}\text{C}$
- **OIL CHANGE EVERY 10.000 km**  
Three times less oil consumption in comparison to a FOCS LDW engine needing oil change every 3.000 km
- **IMPROVED SOUND COMFORT**  
Sound is reduced of as much as 7dB in comparison to a FOCS LDW engine

**New reverser assembled on the engine straight at the engine's factory.**

**Smoother drive thanks to the new lever and to the simplified engagement of forward and reverse gear.**
